I would 100% recommend Bryce and his team at FURNACE FELLAS. I was clueless who to call and trust. Unfortunately, they were not my first call but from here on out will be the only Plumber and HVAC I Call. They came to my rescue after many quotes of Furnace and AC replacement. Their pricing is reasonable, and best of all affordable. I called Bryce again to fix the tub faucet problem done by local facebook plumber (disaster). Bryce came early morning solved my problem. He's an awesome guy. Highly recommended! You'll never go wrong with him and his company.

Furnace Fellas was amazing - quick to answer any questions I had and very understanding with any last minute changes. Bryce was very professional and responsive at any time of the day. We loved Will the installer. He was extremely friendly and hard working. I felt comfortable having him in my home the moment he arrived. I would definitely recommend furnace fellas to anyone needing anything done and will definitely use them in the future for any of my furnace needs!

We had furnace fellas come out to install our AC back in April! I am so grateful for them! Not only we're they super quick to install! They were friendly, easy to talk to and super affordable! If I have any questions I have been able to reach out and get answers right away! Beyond helpful! If you're looking to have an AC installed I highly recommend Furnace fellas!

Contacted a few companies in June for AC installation and Furnace Fellas were the only ones who responded so quickly and provided a quote within the week. Quote was fair and installation was scheduled a few days later. Crew was professional, efficient, helpful and honest with their answers to our questions. Highly recommend Bryce and his team.

I found Bryce via Facebook marketplace. His first visit was professional and on time. I used his services a second time to replace a leaky hot water tank. He was responsive, professional, and was able to replace my hot water tank in no time. I won't hesitate to use Bryce again in the future and would highly recommend him or his team to anyone that requires HVAC service.

Our service technician, Will, was an absolute gem. He spent his time thoroughly checking out our furnace to ensure the problem to be repaired was absolutely necessary. I've dealt with repair service companies many times and it is rare indeed to find one that is honest and has the customer's best interests at heart. If Will is an example of the company's integrity, and I believe he is after talking with the Owner Bryce, then I give them 5 stars. You would be doing yourselves a favor using their services.

They are all professionals, good price compared to other companies, the job was done on time. The only reason I chose Furnace Fellas was because after all the companies came to give me quote, Bryce was the only person that tried to fix the Furnace that I could have heat, he spent his time trying to make it work until I change to new furnace, that was the reason I chose him, and not the others that all they wanted was just money. I'm glad I picked you, and I'm looking forward to change water tank in future with Furnace Fellas. I wish there was 20 🌟 to give you

Great work, thank you! Carrier, get these guys on your list of recommended vendors to service your A/C's. To be fair, this was owner lack of maintenance. But, when the Calgary heat wave (summer?) happened, our aging AC wasn't up to job. I called the Carrier recommendations for service, no one answered the call. Best I got was a voicemail for a callback Monday, it's Friday. It's 28 Celsius in the house. This is where Furnace Fellas enter the picture. Not only do they answer me, they tell me they will be there same day!! Same day is 8pm Friday evening. Outstanding service!! Our house is cooling as I write this on the patio. Bryce, Dylan, thank you!! You've fixed a tough last couple of days.

Awesome service and great price. Our air conditioner quit on us and Furnace Fellas were here the next day to install a new air conditioner. The guys who installed the new air conditioner did an excellent job and were very friendly. I would highly recommend Furnace Fellas.
